

Systems Of Ethics

Emotion

(posterior cingulate cortex
medial prefrontal cortex and
amygdala)

?

(any other)

Cognition

(dorsolateral surface prefrontal cortex
inferior parietal lobes)

Types of Judgements

```
graph TD; A[Types of Judgements] --> B[Factual]; A --> C["? (Moral)"]; A --> D[Normative]; B --> E["p is the case  
is p the case?"]; D --> F["p ought to be the case  
whether p is the case or not"];
```

Factual

p **is** the case
is p the case?

?

(Moral)

Normative

p **ought** to be the case
whether p is the case or not
